Dear MP
As a young constituent, I am writing to you as I believe university fees should be scrapped, and feel that any attempt to increase tuition fees in the upcoming review would be disastrous.

I support the UK Youth Parliament "Free for All" campaign to abolish university tuition fees.

I would be grateful if you could write to the Higher Education Minister on my behalf, to ensure that the UK Youth Parliament, as the leading elected voice of young people under the age of 18, will be involved in the upcoming tuition fees review.

Thank you very much, and I look forward to your reply.
